

# Sabroe SMC Compressors – a lifetime of operation

Multiple options from AfterMarket Solutions (AMS)

In an ever-changing world, AMS has a significant focus on sustainability and efficiency. We offer our customers a wide range of options to keep our excellent piston SMC compressors in operation at optimal conditions, at fixed costs, and with reduced downtime.

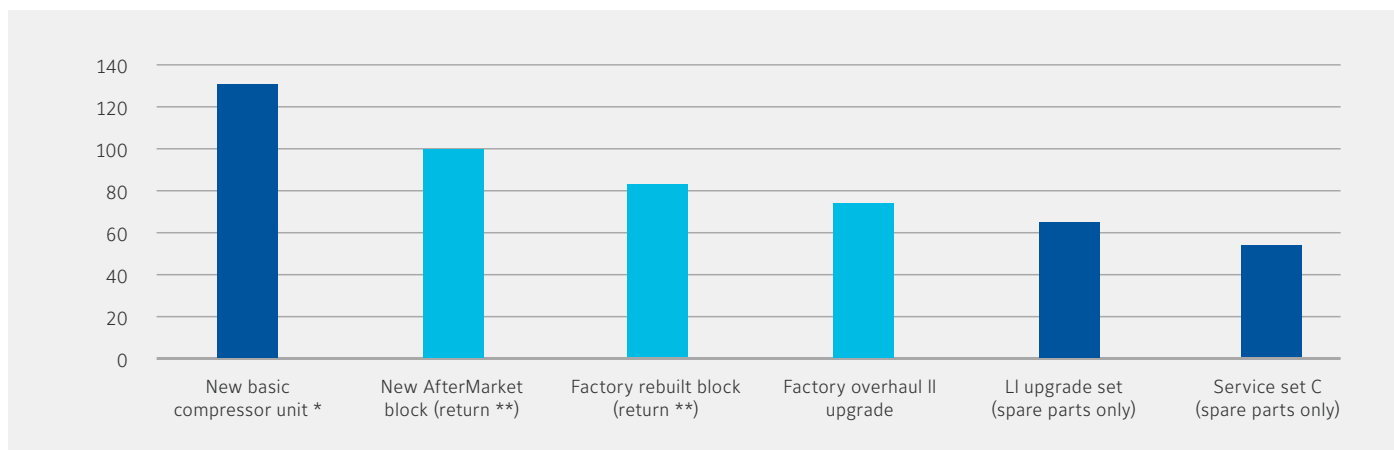

We have here below provided an overview of different options, for you to consider, when choosing the next step on replacing, exchanging, overhauling, upgrading or servicing your Sabroe SMC Compressor.

## Overview of cost index

Comparison of above cost index is based on data from Sabroe MLP for 2021.  
 (\* compressor with gauges, base frame, coupling, oil separator and e-motor)  
 (\*\* e.g. SMC 108 = 1.000 EUR)

## AMS is offering three solutions
