Oil Demister kit for SABROE® SMC 100 Mk 2-3-4

Relaunch and reduced list price

The Industrial Refrigeration Parts Centre is pleased to relaunch the oil demister kits for SABROE® SMC 100 Mk 2-3-4.

The oil demister kit provides a significant reduction of oil consumption, ensuring a fast pay back of your investment.

Example

- Compressor: SMC 108E with a demister type oil separator on R717 at -10/+35°C
- Running hours: 5000 hrs./year
- Oil saving: 50% reduction from 20 ppm to 10ppm will save 77 litres of oil per year.

Besides the direct saving on oil, the demister kit will also be an advantage because:

- It saves operator time for draining oil from evaporator and charging of oil to the compressor
- Less drained oil has to be disposed from the compressor (environmental benefit).

Reduced list price

As part of the relaunch we also implement a reduced list price.

Part number	Description	MLP DKK	MLP EUR
3184.714	Complete demister system for blow-by gas SMC 104 Mk 2-3-4	10.000,00	1.345,90
3184.715	Complete demister system for blow-by gas SMC 106 Mk 2-3-4	10.000,00	1.345,90
3184.716	Complete demister system for blow-by gas SMC 108 Mk 2-3-4	10.000,00	1.345,90
3184.717	Complete demister system for blow-by gas TSMC 108 Mk 2-3-4	5.000,00	672,95
3184.718	Complete demister system for blow-by gas SMC 112 Mk 2-3-4	20.000,00	2.691,79
3184.719	Complete demister system for blow-by gas SMC 116 Mk 2-3-4	20.000,00	2.691,79
3184.720	Complete demister system for blow-by gas TSMC 116 Mk 2-3-4	15.000,00	2.018,84
